Advice from JPAG in Governance & Accountability for Smaller Authorities in England issued in 2019 states:

"**General Reserve** The generally accepted recommendation with regard to the appropriate minimum level of a Smaller Authority's General Reserve is that this should be maintained at between three (3) and twelve (12) months Net Revenue Expenditure (N R E). Net Revenue Expenditure (subject to any planned surplus or deficit) is effectively Precept\Levy less any Loan Repayment and/or amounts included in Precept\Levy for Capital Projects and transfers to Earmarked Reserves. The reason for the wide range (3 to 12 months) is to cater for the large variation in sizes of individual authorities. The smaller the authority the closer the figure should be to 12 months N R E, the larger the authority the nearer to 3 months. In practice, any authority with an N R E in excess of £200,000 should plan on 3 months equivalent General Reserve. In all of this it is important that each authority adopt, as a General Reserve policy, the level appropriate to their size and situation and plan their Budget so as to ensure that the adopted level is maintained. Changes in activity levels/range of services provided will inevitably lead to changes in the requisite minimum level of General Reserve in order to provide working capital for those activities."
